Color

Check this out!

- Tips to select a good/great color scheme for your scientific poster
- <https://www.animateyour.science/post/how-to-select-a-great-colour-scheme-for-your-scientific-poster>
- <https://www.simplifiedsciencepublishing.com/resources/best-color-palettes-for-scientific-figures-and-data-visualizations>

Color

- Use color to:
 - Highlight / emphasize
 - Separate / associate information
- Limit the color palette, no coloring page
 - Do not overwhelm the reader
 - Should not compete with the information
- Use colors in a consistent way

“Color should be used in the same way that type size is used: **to emphasize importance**, not decorate a page.”

— Alexander White

Color: background

- Use 1 background color
 - Take a light color
 - Avoid the standard PowerPoint textures
 - Dark font on light background reads better
<http://www.hhs.gov/web/policies/webstandards/backgrounds.html>
 - Dark backgrounds tend to use a lot of ink (paper curl)

Color: background

- White background will reduce the impact of bright colors

- Pale background will enhance bright colors

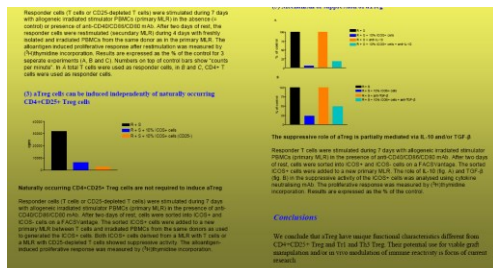

KU LEUVEN

7

Color: gradient, transparency

Gradient

- Be careful
- Print can be bad (banding)

Transparency

- Print can be a problem
- As well in corel as ppt

KU LEUVEN

8

Color: background image

- Usually disappoints
- Keep it really on the background!
- Print can be a problem (transparency)

KU LEUVEN

9

Background

- grays and muted/pale colors help foreground stand out (cool colors)
- Keep backgrounds subtle; no busy backgrounds
- Different options in PowerPoint
- **Design > Themes (Ontwerpen > Thema's)**
- **Background Styles (Ontwerpen > Achtergrondstijlen > Achtergrond opmaken)**

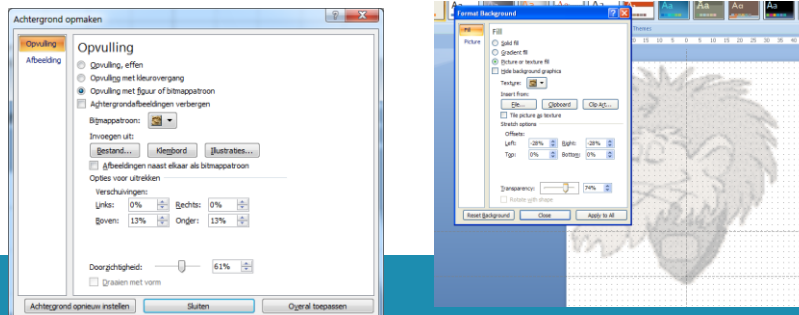

KU LEUVEN

10

Background

- Picture in background
- **Achtergrond opmaken > Opvulling met figuur**
(**Format Background > Picture fill**)
- Change transparency

KU LEUVEN

11

Contrast

- Text blocks on white or pale background, dark fonts
- Use dark background / light letters for title, section headers
- Color blindness?! Red/green combinations

<https://www.storytellingwithdata.com/blog/2018/4/23/accessibility-considerations-for-visuals>

KU LEUVEN

15

Contrast

- Use clear contrasts
- Text shadow can disappoint
- Must be legible at 2m

KU LEUVEN

16

Colorblindness

- Check ColorOracle
<http://colororacle.org/index.html>

KU LEUVEN

17

Color: print

- The color on the computer screen is not the color that will be printed!
- Range screen > range printer
- <http://www.overnightprints.com/difference-between-cmyk-rgb>

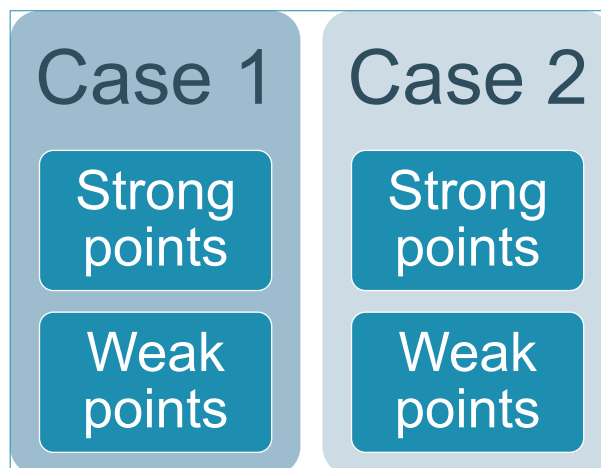

Extra

SmartArt

- Can be useful graphical communication.
 - Don't overuse it.
 - Use it if it can simplify the presentation of the content.
- Select the type that corresponds the best with your message.
- Some layouts are limited in the number of objects.

What kind of message you have?

- Comparison?

Based on <http://blogs.monm.edu/writingatmc/files/2013/03/Research-Poster-Design-Tips.pdf>

What kind of message you have?

- Evolution
- Cause and Effect?

Smart art example

25

QR code

- Create a QR code to an URL containing more information
- Use Edge browser
 - Go to the site you want to create a QR code for.
 - Right-click on the blank area of the page, and click on Create QR code for this page in the context menu.
- Save as png – insert on poster

26

Is it big enough?

- <http://betterposters.blogspot.be/2010/01/is-it-big-enough.html>
- print the poster, at reduced size, on A4
- hold the printed page at arm's length
- be able to read the text and make sense of any pictures or graphs

27

Text: spell check

- Set the proofing language
 - Select the text that you want to check.
 - Review > Language > Set Proofing Language

- In the Language dialog box, select the language you want to use for the dictionary.
- Repeat steps 1-3 for each section of text that you want to check.

Text: spell check

- Select all text
 - View > Outline
 - Ctrl-a to select all text
 - Set proofing language
- Check spelling
 - On the Review tab, in the Proofing group, click Spelling.
 - Shortcut: press F7 to start the spelling checker.

Text: count the number of words

- File > Info > Advanced Properties > Statistics
